# GTF PLUS COMPLETE SOLUTIONS FOR INDUSTRIAL ELECTRIC HEATERS CONTROL

## CONFIGURABLE CONTROLLERS FOR ELECTRICAL POWER

**GTF plus** is the new line of **GEFRAN power controllers**, designed to control all types of industrial electric heaters. **Process accuracy and reliability via voltage, current, power feedback.** 

**Versatility, plus easy and guided configuration with GEFRAN user friendly software,** make the device ideal for all power control applications.

#### > TECHNICAL DATA

- Ideal for resistive loads, Super Kanthal ®, resistors, silicon carbide, long/medium/short-wave IR lamps, mono/tri-phase transformers
- Control: digital, analogue, potentiometer, RS485, Modbus RTU
- Trigger: "Zero crossing", "Burst Firing" "Half Single Cycle", "Phase angle"
- Rated currents from 25 A to 250 A; rated voltages 480VAC, 600VAC and 690Vac
- + Soft-Start, Current Limit, Feedback of I,  $I^2$  , V,  $V^2$  , P

- Accurate diagnostics: partial/total load interrupt, short circuit
- Integrated resettable electronic fuse total protection
- $\cdot$  RS485 communication in Modbus RTU
- UL, TÜV certification

### Modbus RTU

#### > APPLICATIONS

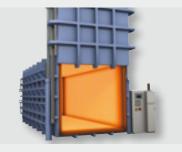

> Plastics: bottle blowing machines

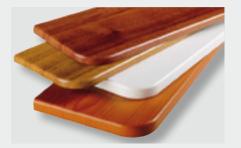

> Glass furnaces and machines

> High-temperature furnaces for metals/thermal treatments

> Wood edging machines

> Ceramics furnaces

Industrial printers with water-based inks
