Data Hold Button
BioCote® Antimicrobial reduces the risk of cross-contamination
1-year Warranty

A Pretty Quick Thermometer!

PDQ400 is a top performing pocket digital thermometer combining accuracy, speed of response and durability. Temperature measurements of thin foods such as burgers can be accurately determined using the small diameter probe.

Comark uses BioCote®, the only antimicrobial solution to be awarded HACCP International Certification, to provide an important extra level of defence against cross-contamination.
